

Stainless Steel Indoor Kitchen

Durable & Sustainable | A Kitchen Tailor-Made To Last A Lifetime

JOL(Hong Kong)Company Limited

Introduction

We are a leading kitchen cabinet designer and manufacturer dedicated to exceptional client experiences.

Our selection features high-end materials like 304 stainless steel and aluminum frames for indoor and outdoor use.

Our products blend style, contemporary trends, and timeless elegance for residential spaces.

Build Process

- 1 Free Consultation**

Discuss initial ideas, budget, and requirements to ensure alignment from the start. Understanding client's specific needs and preferences for the design.
- 2 Basic Measurements**

Following a visit to the client's home, a basic floor plan/layout will be provided to give a brief overview of the design.
- 3 Quotation**

Provide a detailed quotation that outlines costs, terms and conditions, and sets clear expectations.
- 4 Detailed Layout**

After signing the quotation, professional measurements will be conducted. A detailed layout, including the positions for water, electricity, and gas, will be provided for client's approval.
- 5 Production Begins**

Upon final confirmation, our manufacturing team will initiate the production process.
- 6 Installation**

Once the product is ready, logistics and installations will be scheduled and coordinate accordingly.
- 7 Final Inspection**

Conduct a thorough inspection to ensure everything meets quality standards before completion.

Cabinet Base Structures

The base structure of a cabinet is built on three key principles.

Cabinet Body

304 Stainless Steel

Aluminum Frame and composite panels

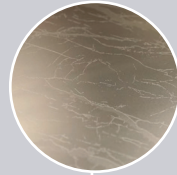

- Zero Formaldehyde
 - Sustainability
 - Durability
- Built to last a lifetime
- Corrosion Resistance
- Scratch Resistance
